[Wall Bracket - Chrome Plated - For Shower Screen](#)

Used to fix Hinge and Return/Fixed panels to the wall.

3 Per Panel recommended

- Wall Bracket
- 3mm Gap between glass and wall
- Chrome Plated Finish
- Square Finish Edges
- Suitable for 8mm & 10mm Glass
- 2 x Compression/Friction screws
- No holes in glass required
- Made from solid brass
- 1 x Fixing screw and Clear Gaskets Provided

Silicon must be used along glass edge when friction brackets used

Some people also use these along the floor however we do not recommend this as the screw will break the waterproofing membrane, the whole glass weight will be positioned on the bracket rather than spread across the length of the sheet and the glass will be held 3mm off the floor.

[Polished Square Base Plate Spigot With Silver Gloss Insulator](#)

Stainless Steel Square Base Plate Spigot plus a thermoplastic non-conductive insulating sleeve that fits over the top.

Cover Specifications

- Made from ASA thermoplastic – excellent weather & chemical resistance and high impact strength
- Non-conductive material
- Includes 1x vertical spigot stem & 2-part domical cover
- Also includes 2x caps which fit into friction grub screw holes
- Firstly install vertical stem to spigot. Fix off base plate with countersunk fixings to substrate. Install the 2 part domical cover.
- Can be retro fitted to existing base plate Madrid spigots
- Specialty designed top section prevents chance of pulling insulating cover away from spigot and base plate

Select to colour match the spigot to the cover if you plan on removing the cover at a later date.

You will not need to earth your spigot if you use this product.

- Includes 1x vertical spigot stem & 2-part domical cover
- Also includes 2x caps which fit into friction grub screw holes
- Firstly install vertical stem to spigot. Fix off base plate with countersunk fixings to substrate. Install the 2 part domical cover.
- Can be retro fitted to existing base plate Madrid spigots
- Specialty designed top section prevents chance of pulling insulating cover away from spigot and base plate

Select to colour match the spigot to the cover if you plan on removing the cover at a later date.

You will not need to earth your spigot if you use this product.

[Polished Stainless Polaris 125 Series Glass/Wall Hinges](#)

- Polished Stainless Steel Finish
- 2205 grade stainless steel
- 4x fixing holes to wall/post
- Self closing pool fence compliant safety hinge
- Tested to cycle count Australian Standards requirements
- Adjustable closing speed with European dampeners providing a soft close action
- Polymer cone cap supplied and can be fitted on bottom hinge for anti-toe hold
- Suits 10 or 12mm thick glass gates (max 45kg)
- Easy gate installation: firstly, fit hinges to gate and place gate in proposed position. Once in correct position, screw off to wall/post through 2 x outer holes. Then open the gate and screw off through 2 x inner holes.

Select to add a post adapter if you are using a 50mm round or 50x50 Square post.

Note: You will need to use a Deluxe Soft Close Glass to Wall Gate Panel with these hinges. The cut out in the glass needs to match the cut out specified for these hinges.
