

Adjustable Vertical Joiner for 35x35mm Aluminium Glass Top Rail

- 35x35mm Vertical Adjustable Joiner
- Use when 2 lengths of rail join on a vertical plane at any angle other than 90 degrees
- Made from structural alloy 6061-T6
- Fits into Internal Cavity of Rail
- 4 x Pointed Grub Screws pre-installed to aid in securing join of rails
- Fitting is not visible once installed so does not need to colour match to the rail

Note: Rail must be neatly cut on the correct angles. A aluminium cutting blade on a drop saw will give best results
