

Description

Versatilt – Aluminium Deck Mount / Concealed In-Deck Channel Kit

A versatile channel system designed for both **deck mount** and **concealed in-deck** installations. The Versatilt kit offers a sleek, durable, and flexible solution for frameless glass fencing or balustrade applications.

Kit Includes:

- 1 x 4200mm Clear Anodised Aluminium Channel
- 2 x 4450mm Full Covers
- 2 x 4450mm Top Covers
- 2 x 4450mm Glazing Rubbers

Installation Options:

- **Deck Mount Installation:**
Use the *full covers* along with the *glazing rubbers* for a raised surface-mount finish.
- **Concealed In-Deck Installation:**
Use the *top covers* with the *glazing rubbers* for a sleek, hidden-in-deck appearance.

Important: Ensure adequate water drainage points are provided during installation to prevent water build-up.

Ordering Notes:

You will need to order the following additional items when ordering the Channel Kits:

- Pressure Plates ([12mm](#) or [15mm](#)) - **4 Required per glass panel** you are installing. Make sure you order the correct size for the glass you will be using.
- [Top Infill Rubber](#) - Cut up and install in between the glass panels for a neater finish
- [15mm Glazing Rubber](#) - Kits are supplied standard with 12mm Rubber. you will need to discard this if using 15mm glass.
- End Caps ([Deck Mount](#) or [Face Mount](#))- Make sure you order the correct end plates for the kit.
- [Alignement Pins](#) - Required if you are joining channel in a straight line.
